### COURSE INFORMATION

#### Description

This is an undergraduate introductory social work course on mental health. The aim of the course is to acquire basic knowledge and skills for effective and culturally appropriate interventions. Students examine the history of psychiatric care to inform a social work perspective on mental health/illness, human rights, social justice, stigma, ethical/legal issues, and a continuum of care for families, communities, and service providers. Mental health/illness is taught from a distinct social work perspective using historical-critical analysis and case studies.

#### Rationale/Overview

Students examine mental health topics from a historical perspective to explore contemporary trends. Philosophical, ethical, legal, anti-racism, diversity, equity, and inclusion (A DEI), and social work practice implications will also be discussed throughout the course.

## Course Objectives/Student Learning Outcomes

1. Discover how historical events shaped beliefs, attitudes, and behaviors towards the care of persons and families with a mental disorder.
2. Describe deinstitutionalization in relation to current community mental health policies and practices.
3. Critique the ethical, legal, moral, and anti-racism, diversity, equity, and inclusion (ADEI) in aspects of mental health in relation to a continuum-of-care.
4. Analyze the etiology and assessment of disorders in relation to person-in-environment, the DSM-V, and psychotropic medications.
5. Understand effective models of care from a social work perspective.

## WRITING GUIDELINES

Students should make sure that writing assignments are free of grammar, punctuation, and spelling errors. Papers should adhere to the most recent citation style outlined by the American Psychological Association (APA).

## PLAGIARISM STATEMENT

In this course, students will submit written work by making use of information and ideas found in print or online sources. Whenever material from another writer is used, it is important that students quote or paraphrase appropriately and cite the source.

The UNO Academic Integrity policy defines plagiarism as "presenting the work of another as one's own (i.e., without proper acknowledgment of the source) and submitting academic work in whole or in part as one's own when such work has been prepared by another person or copied from another person."

Failure to cite sources appropriately is plagiarism, a serious academic offense. Plagiarized work will not be accepted. Consequences for plagiarism are up to the discretion of the instructor; they may range, for example, from rewriting all or part of a paper to a grade of F for the course. Students who plagiarize more than once are subject to disciplinary action, which may include expulsion from the university.

**Students SHOULD NOT GUESS when it comes to using or citing another writer's work. Students should contact the instructor or a consultant at the UNO Writing Center with questions. Students should take a printout of the original source as well as the paper that is being written to the consultation.**

## **ACADEMIC INTEGRITY POLICY**

The maintenance of academic honesty and integrity is a vital concern of the University community. Any student found responsible for violating the [policy on Academic Integrity](#) shall be subject to both academic and disciplinary sanctions. Violations of the policy on Academic Integrity include, but are not limited to, the following: cheating, fabrication and falsification, plagiarism, abuse of academic materials and/or equipment, complicity in academic dishonesty, falsifying grade reports, and/or misrepresentation to avoid academic work. More information about these areas and the procedures addressing academic integrity is available from the Office of Academic and Student Affairs (EAB 202 | 402.554.2262).

## **CLASSROOM EXPECTATIONS**

Students are expected to arrive on time to class meetings. Students should come to class well prepared, meaning readings and other assignments have been completed. Students are welcome to use cell phones, mobile devices, and/or laptops in class provided they are used for academic purposes such as note taking, accessing course materials, or researching course concepts and their use does not disrupt fellow classmates. Please silence devices if at all possible. A student who receives a phone call or text, should step outside the classroom to respond. DO NOT take pictures or video during class.

## **TECHNOLOGY REQUIREMENTS**
