

# HOT WORK PERMIT Permit # WARNING!

# HOT WORK IN PROGRESS, WATCH FOR FIRE

This Hot Work Permit is required for any operation involving open flame or producing heat and/or sparks. This work includes, but is not limited to, welding, brazing, cutting, grinding, soldering, thawing pipe, torch-applied roofing, or chemical welding.

### INSTRUCTIONS:

- <u>The person doing hot work</u>: Indicate time started and post this PERMIT at the work location. After hot work, indicate time completed and leave permit posted during final fire watch by UNO public safety.
- Fire Watch: The person doing the hot work <u>CANNOT</u> be the fire watch. Fire watch will continuously monitor during the hot work and one hour after the work is done. Before leaving the area, do a final inspection, sign the permit, leave the permit posted and notify the hot work authorizing supervisor about the completion of the work.
- Public Safety: Monitor work area every hour for the next 4 hours. Pick up the permit at the last inspection and return the permit to Dispatcher for the log entry.
- 4. <u>Public Safety Dispatcher:</u> If no call is received from the supervisor, call the permit-issuing supervisor for work status verification.

HOT WORK DONE BY		Date:			
0 0	UNO employee Contractor	Location: Room: Type of job:			
			Start time:	am	pm
