

HOW TO INSTALL RED BAGS

← The new bins have a tab (circle) and notch (arrow) to secure the bag corners

- ↓
1. Lift the lid and hook the bag over the outer corner of the bin using the tab and notch
 2. Pull the edge of the bag over the remaining corners-last corner should pull tight and secure the bag to the bin

BIOHAZARD WASTE DISPOSAL

Dispose of red bin waste when 2/3 full (allow enough bag to knot)

NOTE: EVS will **NOT** pick up **overfilled** bags or bags **over 45 lbs**

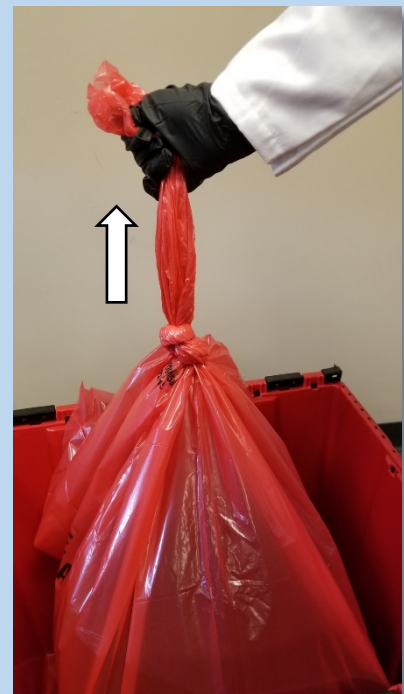

HOW TO TIE RED BAGS

1. Gather top of bag and twist

2. Make loop then push bag end through it

3. Pull on bag end to tighten knot
