# AI LEARNING LAB

The AI Learning Lab at the University of Nebraska at Omaha (UNO) brings exciting opportunities to leverage AI in a coordinated capacity to campus, with extensive support available to assist AI efforts.

EMPOWERING THE UNO COMMUNITY WITH AI

The AI Learning Lab exists to support faculty and staff at the intersection of AI and education. The AI Learning Lab will help with the development of AI skills, the implementation of AI into courses, identification of operational efficiencies in administrative units, and guiding the ethical and appropriate use of AI throughout the UNO Community.

LEARNING LAB ELEMENTS

Click the icons to learn more

OPEN AI CHALLENGE

Request process for UNO faculty and staff to gain access to enterprise ChatGPT
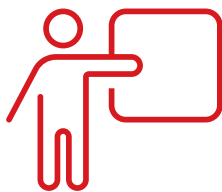

AI SUPPORT

Trainings, resources, and professional development opportunities

GRANTS

Grants to support integrating generative AI into courses with expert guidance

AI EDUCATOR PROGRAM

An opportunity to learn and apply AI skills while earning a digital badge

AI CAMPUS CONSORTIUM

An interdisciplinary committee from across the campus to provide guidance for the Lab

AI SUMMIT

Coming spring 2025, the AI summit invites campus who use AI with innovation
