

**Submit Animal Exposure Health Surveillance Questionnaire**

1. RSS→EHS tab→ Med Questionnaire→UNO
2. Category 1 is for entrance into the animal facility, field work, and contact with rodents, fish, dogs, and cats.
3. Category 2 is for contact with nonhuman primates. **DO NOT COMPLETE THIS QUESTIONNAIRE IF YOU WILL NOT BE WORKING WITH NHPs.**

**Complete Occupational Health and Safety Training**

1. Email [iacuc@unomaha.edu](mailto:iacuc@unomaha.edu) for enrollment in the course, and include the following information:
  - a. Species you will be working with
  - b. PI/Faculty you are working with
  - c. If you are providing husbandry and/or will be doing research
2. Once you receive the enrollment link, log in to Bridge and complete training with grade of 80% or above

**Complete CITI IACUC Basics training**

1. Go to [www.citiprogram.org](http://www.citiprogram.org). Register and create profile.
2. Complete the “Investigators, Staff, and Students” IACUC course.

**Complete your profile in RSS**

1. Log in to [RSS](#)
2. Click UNO IACUC → UNO Qualifications
3. Enter your personal information, education (click the notepad icon), current skills, and a description of how you acquired your current skills or related work experience.

Detailed instructions for logging into RSS and CITI Program are found on this site:

[Education and Training | Office of Research and Creative Activity | University of Nebraska Omaha \(unomaha.edu\)](#)

- When all items are completed, your Principal Investigator must add you to an active IACUC protocol prior to requesting access to animals and the animal facility. Your PI must request badge access and keys by emailing [btrail@unomaha.edu](mailto:btrail@unomaha.edu) or [iacuc@unomaha.edu](mailto:iacuc@unomaha.edu)
